

Job Opportunity: Project Manager

Mocean Energy Ltd
Edinburgh, Scotland

Mocean Energy is creating products that provide renewable energy from the ocean for off-grid systems in the ocean. Our core technology is for harnessing energy from ocean waves

Overview

Mocean Energy is a start-up ocean wave energy converter (WEC) developer founded in 2015 and based in Edinburgh, Scotland. Our core technology is a hinged raft WEC with a novel geometry that increases energy production by a factor of 3 compared to conventional designs. More can be found at: moceanenergy.com/technology. Mocean Energy is seeking to hire an experienced Project Manager to manage a £3M WEC prototype build and test project.

What's in it for you?

The Mocean team is small, but our ambitions are large. Joining us will give you the opportunity to be part of an exciting technology development from its early days with tremendous potential for company and career growth.
